QUALITY

At GenX, quality isn't just a benchmark—it's our identity. Every one-piece toilet, wall-hung unit, table top basin, and accessory that bears our name reflects our commitment to precision, durability, and design excellence. We leverage cutting-edge manufacturing technologies and superior raw materials to ensure that every product not only meets but exceeds the benchmarks set. Each piece undergoes rigorous testing for functionality, surface finish, water efficiency, and structural strength. Our glazes are high gloss, stain-resistant, and antibacterial—making hygiene effortless and long-lasting. GenX products are crafted not only to beautify bathrooms but to offer our customers peace of mind through lasting performance.

AVAILABILITY PRODUCT AND STORAGE INFRASTRUCTURE

At GenX, we believe that excellence in manufacturing must be matched with excellence in availability. That's why we maintain robust inventory management systems and spacious, strategically located warehouses to ensure that our products are available when and where our customers need them. Whether you're a retailer, a developer, or a homeowner, our well-organized supply chain ensures minimal lead times and prompt delivery. Our storage facilities are climate-controlled and optimized to prevent damage, ensuring every product arrives in pristine condition. We maintain healthy stock levels of all fast-moving products and provide real-time updates to our distribution partners to keep the supply chain seamless and predictable.

AFTER-SALES SERVICES

At GenX, our relationship with our customers doesn't end at the point of sale—it begins there. We've built a dedicated after-sales support team trained to handle product queries, technical guidance, and service requests with efficiency and empathy. Whether it's installation assistance, troubleshooting, or a warranty claim, our service model is designed around responsiveness and resolution. For bulk and institutional clients, we offer priority service visits and scheduled maintenance packages. Our goal is simple: ensure every Genx customer feels supported, long after the purchase is made.

QUALITY PROCEDURES

Dear Colleagues, Partners and Well-Wishers, measures at every stage of production:

1. Raw Material inspection-Testing for purity, consistency, and composition.
2. Precision Molding & Casting-Ensuring accurate shapes and defect-free structures.
3. Drying & Firing-High-temperature kiln firing for maximum strength and durability.
4. Glazing & Finishing-Appling scratch-resistant, anti-bacterial coatings for a long lasting finish.
5. Final Quality Check-Products undergo leakage, strength, and surface quality testing before packaging. With a commitment to excellence and precision, we ensure that every Gen-x sanitaryware products meet the highest durability, functionality, and aesthetic standards.

EVERY TOILET IS BEING PASSED WITH BELOW TESTS:

1. 100 Ball Test
2. Glossiness Test
3. Whiteness Test
4. Ink Test
5. Over splash Test
6. Saw Dust Test
7. Leakage Test
8. 400 kg Weight Test
9. Waste Extraction Test
10. Trap Diameter Test
11. Trap Seal Depth Test

TECHNOLOGY

SIPHONIC

The siphonic flush system is also known as the suction flushing system. The siphonic flush system creates the narrow 'Q' shaped trap way. You'll have a clear bowl with a lower chance of skid marks. With the use of advanced technology in flushing.

TORNADO

Tornado flush system features two powerful nozzle that will create a cyclonic rinsing action. It will reduce waste buildup & keeps the bowl neat and clean. This high-efficiency mechanism is more effective in one flush that most toilets are with multiple flushes.

WASH DOWN

The way wash down flushing works is very simple. It will use the weight and gravitational flow of water from a toilet bowl. It will save your water effectively as it includes dual flushing.

ECO - FRIENDLY

Gen-x Sanitarywares prioritizes sustainable manufacturing with eco-friendly materials and water-saving technology, reducing environmental impact.

GERMAN TECHNOLOGY

Our products incorporate advanced German engineering, ensuring precision, durability, and superior performance.

EASY TO INSTALL

Designed for quick and hassle-free installation, our sanitaryware saves time and effort.

TAKE-OFF SYSTEM

Our innovative take-off system allows for easy removal and reinstallation, of seat cover, simplifying cleaning and maintenance.

WATER SAVING

With efficient flush technology, our products reduce water consumption without compromising performance.

STAIN-FREE

Special glazing and surface treatment prevent stains, keeping the surface shiny and spotless for years.

SOFT CLOSE

Our soft-close seat covers ensure silent, smooth closing, preventing noise and damage.

HYGIENIC

Designed for maximum cleanliness, our sanitaryware resists bacteria buildup and promotes a healthier environment.

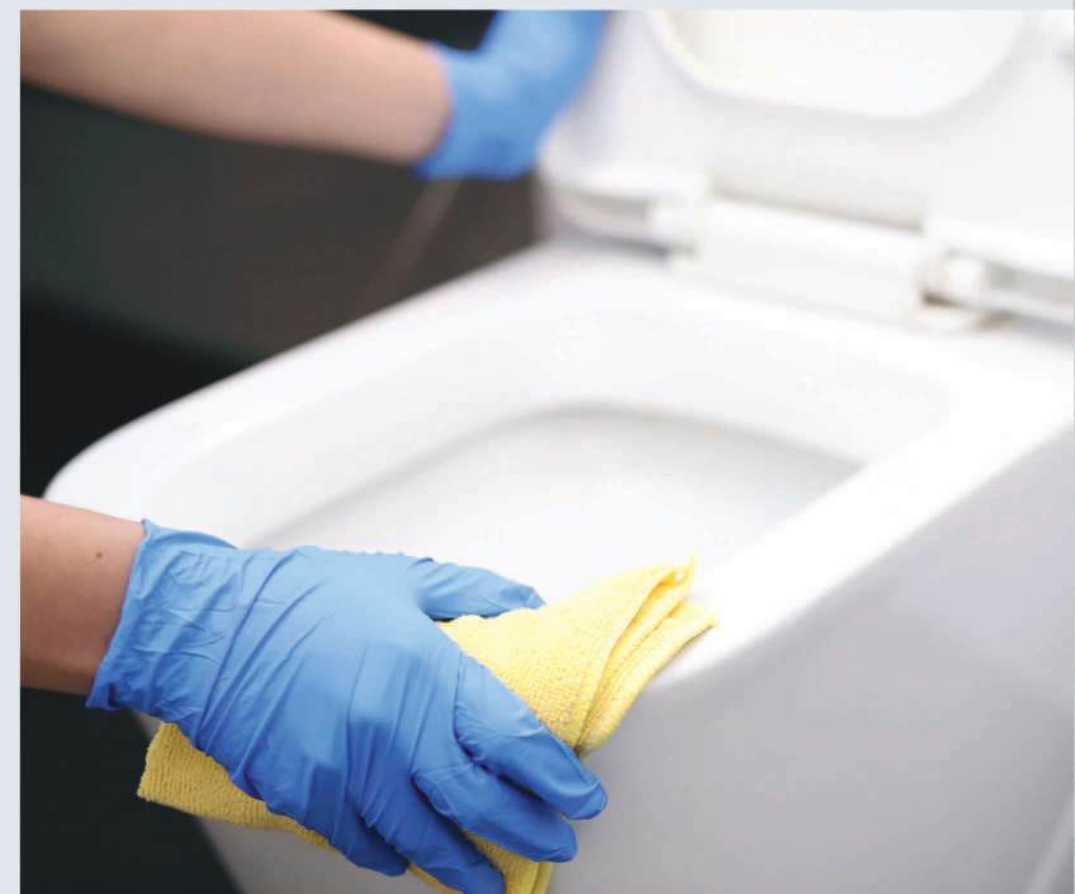

EASY TO CLEAN

With smooth, rimless designs and dirt-resistant surfaces, our products are effortless to clean and maintain.

ANTIBACTERIAL FINISH

Why Choose Gen-x

At GEN-X Sanitary Wares LLP, we are committed to delivering innovation, quality, and excellence in every product. Our sanitary ware is crafted using premium materials, advanced technology, and strict quality control, ensuring durability, efficiency, and elegant designs. With a strong presence in the global market, we cater to diverse customer needs while maintaining international standards. Our products are designed for superior hygiene, water efficiency, and effortless maintenance, marking them the perfect choice for modern homes and commercial spaces. Choose GEN-X for sanitary solutions that go beyond imagination and are inspired by your imagination.

GEN-X GALLERY

Our exquisite range of sanitaryware completes the lifestyle offering to millions of our customers across India. The elegant look, quality and style of our ceramic collection ensures that our loyal customers shall get the best in class. A perfect setting for a rendezvous with class is finally here!

OUR PHILOSOPHY

Deliver more than expectation, and your customer will come back to you only. This is the mantra that we have ingrained into our corporate culture and at every stage we ensure we surpass the conventional limits of expectations be it material quality, delivery time line or consumer delight.

DRIVEN BY EXCELLENCE, FOR QUALITY OUTPUT

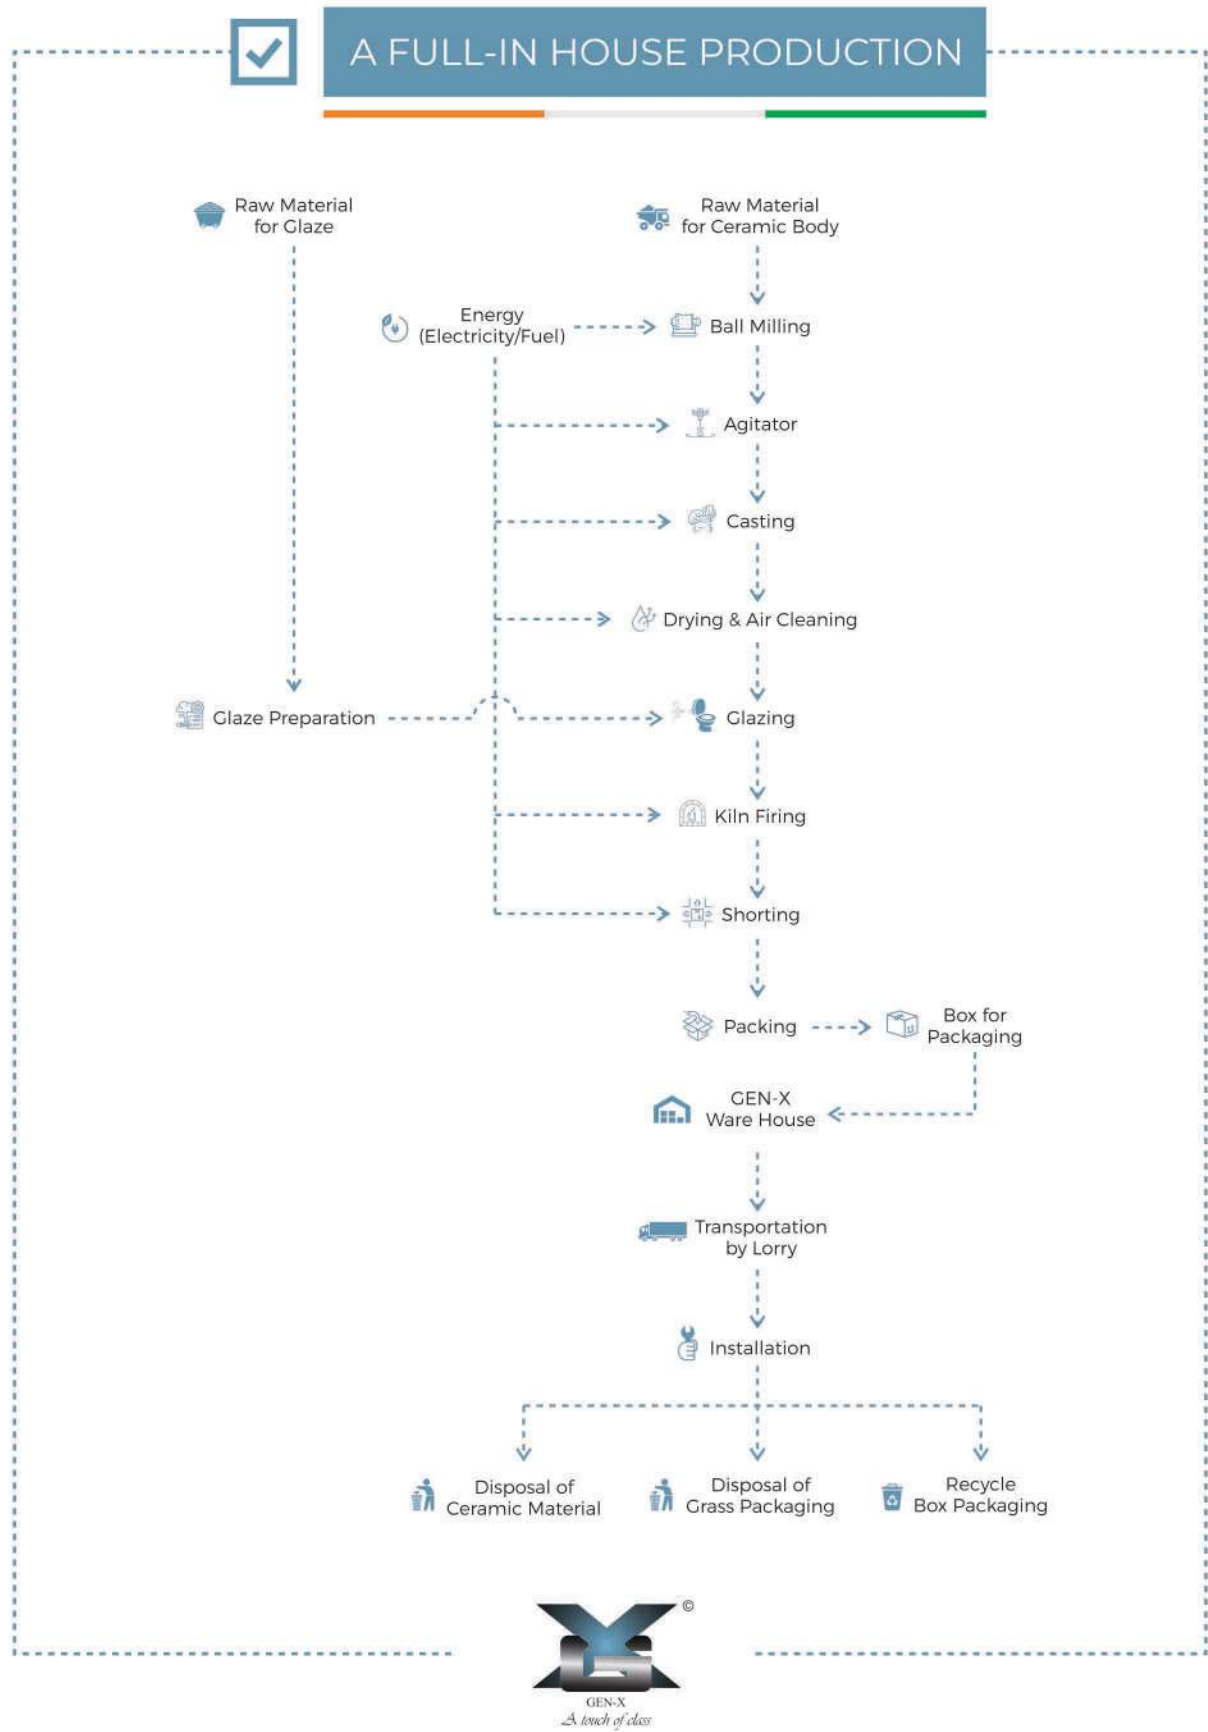

At Gen-x, our quality principles are set to the highest levels and are at par with the international standards. We believe in delivering only the best to our end consumers and share the resultant glory with the entire family of our dealers.

GEN-X TODAY

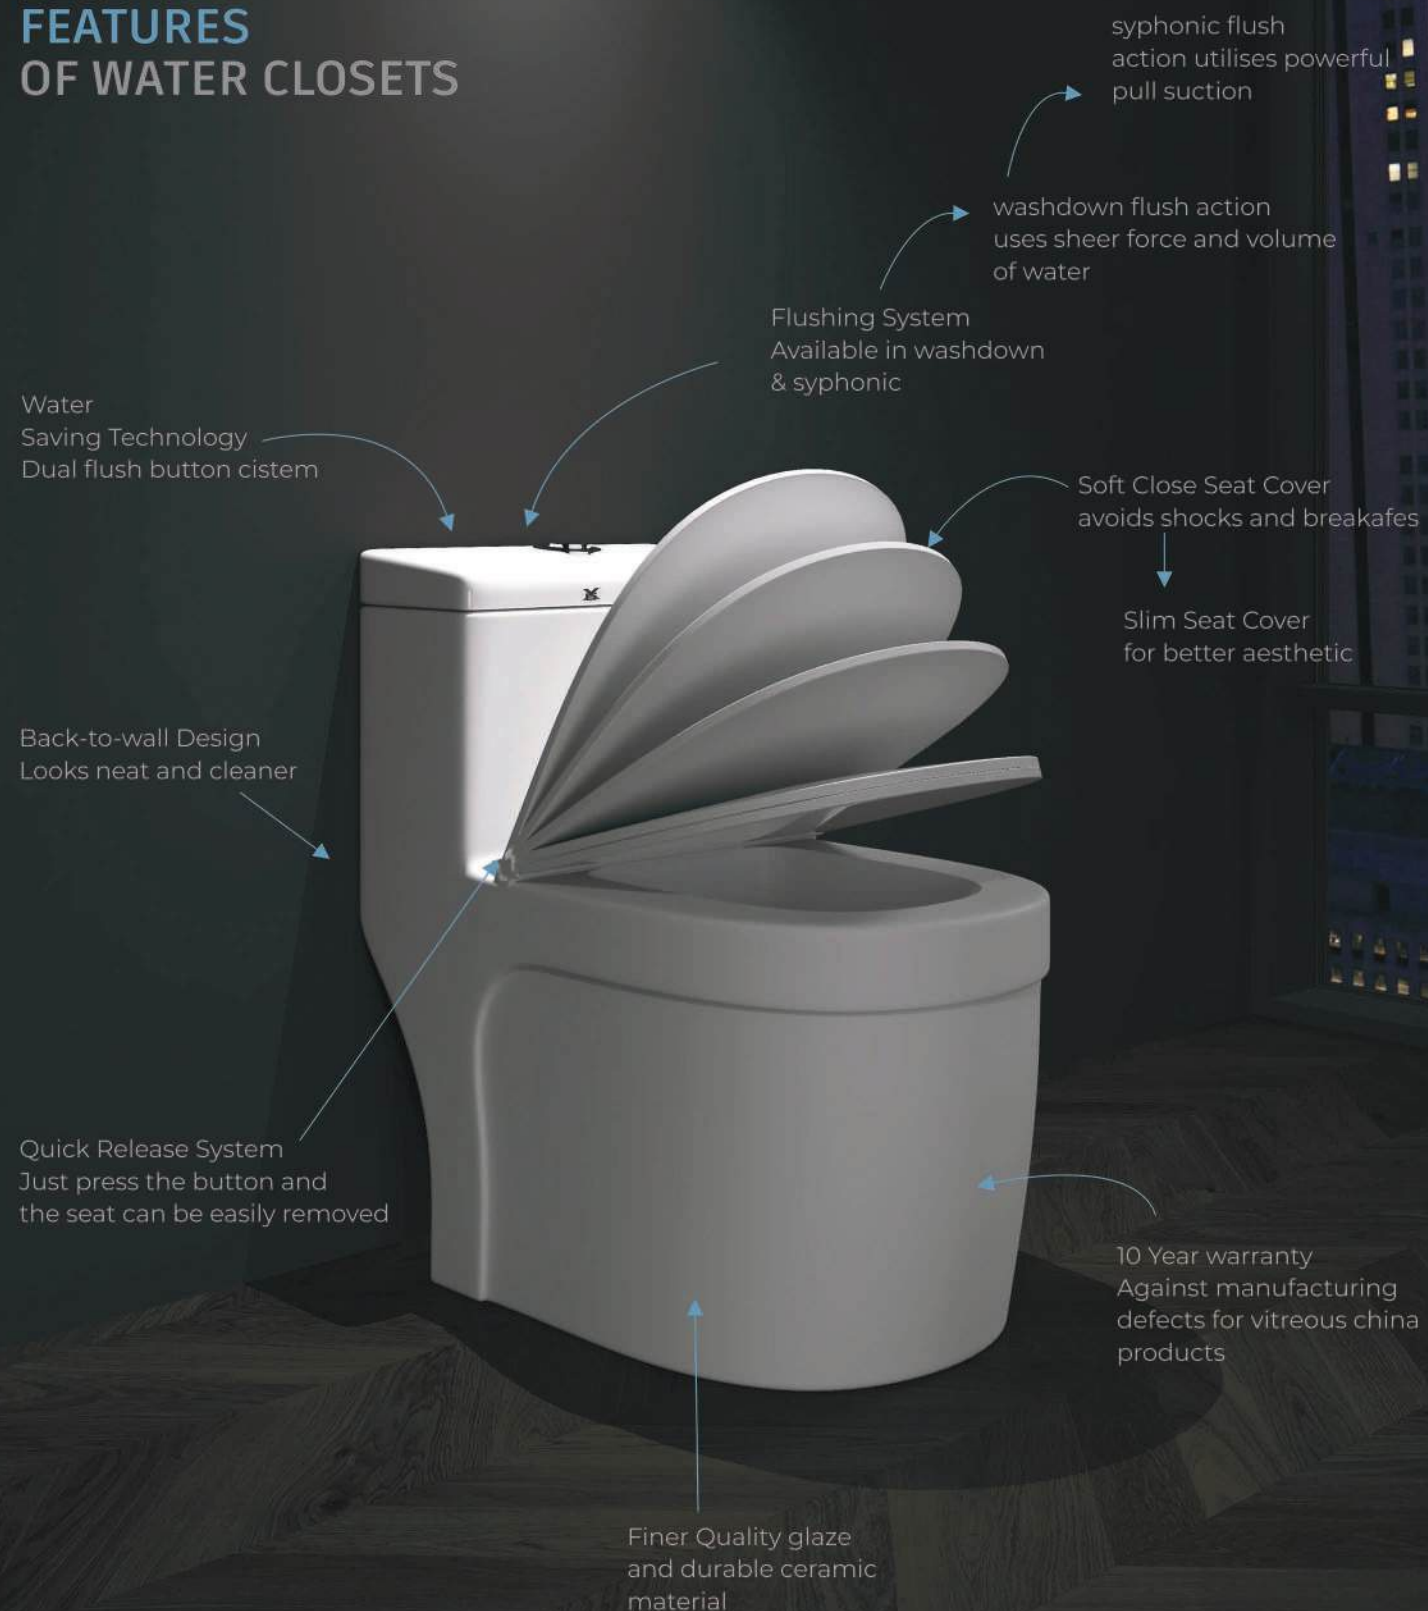

After establishing ourselves as prominent brand in domestic markets, we are all set to sail into other territories where quality products are in huge demand. With our expansion plans in action, we are triggering a chain of market acquisition spree with our highly acclaimed products. While we rev up our production capacity, we duly ensure our marketing and service network also grows in harmony.

WALL HUNG BASIN

As per shown in the picture, the rag bolt must be grouted into the cement/concrete wall. The bolts must be fixed to the cement/concrete wall. Allow setting & checking than install it using nut and washer.

COUNTER WASHBASIN

At the beginning

1. A skilled or experienced person should install counter lavatories.
2. Avoid using adhesive with this product.
3. Check the waste area and supply tubing if required.
4. Do not open the lavatory from its protective carton until you are ready for installation.
5. Please follow all local building and plumbing codes.

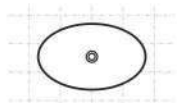

MATERIAL & TOOLS

Measure tape, Keyhole or saber saw, Hammer, Glasses, Rags or Paper toweling, Drill (1/2 dia, drill bit or larger), Pencil, sealant, sharp knife or scissors.

INSTALLATION OF LAVATORY

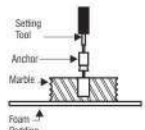

Please Note : Please install it in a way that future removal from underneath the counter top is possible without damaging the counter top.

1. Please check the desired location for clearance between the back splash, faucet, Fixture and cabinet.
2. Please cut the template.
3. Please carefully trace the template on the counter top directed.
4. Please mark the faucet hole centerline on the counter top.
5. Please drill a 1/2" pilot on the inside of the cut line.

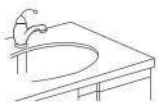

For Wood Counter tops:

1. Mark and per-drill the wood screw holes at the locations shown on the template.
2. Waterproof any exposed areas of wood.

For Marble Counter tops:

1. Position the counter top upside down on foam padding to protect the surface. Mark and drill 3/8" holes 5/8" deep at the locations shown on the template.
2. Use a setting tool and hammer to secure the anchors.

For All Installations:

1. If the counter top has not been installed, install it at this time.
2. Drill the faucet holes according to the faucet installation instructions.
3. Install the faucet to the counter top according to the manufacture's instructions.
4. Install the drain to the lavatory according to the manufacture's instructions.

MAINTENANCE

Like any other part of your house, the bathroom can be made to look great and made to last long if it is taken care of regularly. To make your bathroom beautiful here are some invaluable tips.

Wash Basin :

A mild detergent can be used to wash the basin at least once a day. After washing, the basin should be wiped out clearly to avoid water stains.

Closets:

Cleanser like Harpic can be used to clear the closet with soft plastic brush, at least once a day.

To avoid minute discoloring, after flushing the toilet give it a once over with the soft brush.

Keep the toilet brush handy in a convenient stand nearby.

In case of toilets and basins, if there has been no maintenance since long period of time, water deposits and discoloration can form on the surface of areas that get wet. In such cases, these stains/marks can be removed with the help of a solution of dilute hydrochloric acid.

Clean with a soft cotton cloth and warm water with soap.

Do not use thinner, day cleaning liquids or powder paste. Use a liquid cleaner at least twice a week.

Use brasso or car rubbing compound and then polish with a cloth to remove fine scratches.

TROUBLESHOOTING GUIDE

ITEM	PROBLEM	PROBABLE REASONS	CORRECTIVE ACTIONS
Wash Basins / Table Top	1. Overflow Chocked And Foul Bed Odor	Waste Coupling Used May Be Full Threaded	Waste Coupling Should Be Changed To Slot Cut Coupling
	2. Water Deposit On Tap Platform Area And Inside Bowl Area	Basin Is Not Fixed In Level Or Bracket Is Not In Level	Should Be Done By Proper Leveling
	3. There Is No Tap Hole In Basin	Tap Hole Could Be Semi Punched From Back Side	Tap Hole Should Be Created By Plumber From Semipunched Area
Ewc / Pan / Anglo Indian	1. Water Not Coming In Bowl Area While Flushing	Flush Bend Is Not Inserted Up To The End Of Inlet Hole	Insert The Flush Pipe Up To The End Of Inlet (For Pan Closet: Check Whether Flush Pipe Is Not Covering Flush Hole Which Is In Both Side Of Inlet Wall
		Closet / Pan May Be Not Leveled	Should Be Done By Proper Leveling
One Piece Closet	1. Water Not Coming In Bowl Area While Flushing	Mechanism Inside Tank Could Not Working Properly	Change The Centre Pump Of Mechanism
	2. Water Is Continuously Leaking Inside The Bowl	There Is No Water In Flush Tank	Increase The Ball Cock Height To The Max Level
		Mechanism Inside Tank Could Not Working Properly	Change The Centre Pump Of Mechanism
		Ball Cock Height Adjusted At Lower Level	Increase The Ball Cock Height To The Max Level
Wallhung Water Closet	1. Water Not Coming In Bowl Area While Flushing	Flush Valve May Not Working Properly / Concealed Cistern Is Not Working Properly	Should Change Flush Valve / Concealed Cistern
	2. Water Is Continuously Leaking Inside The Bowl	Flush Pipe Is Not Inserted Up To The End Of Inlet Hole	Insert The Flush Pipe Up To The End Of Inlet
		Closet Is Not Leveled Properly	Closet Should Be In Proper Level
		Connection Between Closet Outlet And Drainage Pipe Is Not Proper	Should Be Done By Proper Connection By Experienced Plumber
Couple Closet (2 Pcs Closet)	1. Uneven Flow Of Water From Both Side Of Closet Bowl	Both Arm Of Diverter Pipe Not Inserted Equally In Both Side Of The Closet	Both Arm Of Diverter Pipe Should Be Inserted Equally In Both Side Of The Closet
	2. Water Is Leaking Between The Cistern And Closet	Diverter Pipe Not Fixed Properly In The Outlet Of Cistern	Diverter Pipe Should Be Fixed Properly In The Outlet Of Cistern
		Rubber Ring Containing Bolt Is Not Tightened Properly	Rubber Ring Containing Bolt Should Be Tightened Properly
